Logan

Integrated Policy

Logan Energy has over 25 years' experience and a proven track record in delivering projects and solutions in renewable hydrogen sector. We specialise in the delivery of integrated engineering solutions incorporating hydrogen technologies for production through to refuelling.

We offer a full turnkey service from project inception & feasibility, design development, manufacturing, installation, and operation and maintenance. We have designed, built, and installed hydrogen production & refuelling stations and are currently constructing further stations for buses, vans, passenger vehicles, and heavy-duty vehicles.

We are manufacturer independent and able to analyse and select any appropriate equipment based on our real-world solutions.

The specific objectives of our policy are:

1. To implement and maintain a comprehensive quality, environmental and health & safety management system which will form an integral part of our existing organisational culture of commitment to continual improvement.
2. To fulfil all applicable requirements and compliance obligations which relate to our identified environmental aspects and health & safety hazards.
3. To protect the environment through the prevention of pollution, while proactively addressing climate change impacts, safeguarding biodiversity, managing pollution and resource scarcity, and considering local environmental conditions such as water availability.
4. To provide safe and healthy working conditions for the prevention of injury and ill-health.
5. To eliminate hazards and reduce OH&S risks.
6. To ensure all our employees are consulted and afforded the right to participate in decisions relating to the occupational health and safety.
7. To provide adequate training to all our employees and sub-contractors to enable them to work within and contribute to our policy commitments.
8. To promote our commitment to providing a quality service in an environmental responsibility manner to our contractors and suppliers by making this policy available to all stakeholders and customers upon request.

Review of quality, health, safety and environmental objectives is reviewed annually to ensure continual improvement of our integrated management system.

This policy will be subject to regular review.
